Hurricane season begins June 1st and as with every hurricane season regardless of forecast, knowing the essentials of how to prepare could truly be a life saver. History teaches that a lack of hurricane awareness and preparation are common threads among all major hurricane disasters. By knowing your vulnerability and what actions you should take, you can reduce the effects of a hurricane disaster. Hurricane hazards come in many forms, including storm surge, heavy rainfall, inland flooding, high winds, tornadoes, and rip currents. The National Weather Service is responsible for protecting life and property through issuance of timely watches and warnings, but it is essential that your family be ready before a storm approaches. Everything you need to know about hurricane preparedness can be found at <https://www.tampagov.net/emergency-management>.

Flag Day

Flag Day is Friday, June 14th. In August of 1949, Harry S. Truman signed into law the National Flag Day observance to occur on June 14th of each year. There were, and still are, thirteen stripes on the flag. The colors of the stripes alternate red and white. Beginning with the red color on top, there are seven red stripes and six white stripes. The first flag contained thirteen white stars within the blue section placed in a circular design. Currently, there are fifty white stars within the blue section placed on a diagonal line design. In observance of this patriotic day the Management Staff will be handing out stick flags in the morning.

Happy Anniversary to the following tenants celebrating June Anniversaries
