WATER CONSERVATION: FROM DRIPS TO CHIPS

Frito-Lay has a lot to say when it comes to the flavor of their products. In fact, they're so sure of their chips that they "betcha can't eat just one!" Yet the company is more than snacks—they're also in the business of manufacturing water-conservation awareness. For example: by recycling water, Frito-Lay has made a 35-percent reduction in the amount of fresh water needed for washing potato slices. They also recycle corn cooking water, cutting water use in that process by 50 percent. Overall, their efforts have saved more than 1 billion gallons of water per year.

Rock The Park Tampa is on Thursday, October 3rd, at 6:30 pm in Curtis Hixon Park.
